

Purple Wojak (\$PURK)

Distribution & Tokenomics

Overview

\$PURK is a community and culture-focused meme token built on the Solana blockchain. It is designed with simplicity, transparency, and fairness at its core, emphasizing organic growth driven by its community rather than financial engineering.

Token Supply

- Fixed total supply created at launch
- No additional minting possible after deployment

Distribution Model

- Fair launch distribution
- No presale or private allocation
- Equal access at launch for all participants

Emissions & Inflation

- No inflation or emissions
- No vesting schedules
- No staking or block rewards

Utility & Transfers

- Tokens are transferred only via on-chain transactions
- No off-chain issuance or synthetic supply mechanisms

Philosophy

\$PURK prioritizes culture, memes, and community conviction over complex token mechanics. The project embraces transparency, decentralization, and long-term community ownership.

Disclaimer

\$PURK is a meme token with no promise of financial returns. Participation is voluntary and should be approached responsibly.
